Over 60 years of Medical and Boat Building Experience  
In Country-Medical Crew & Maintenance Training Options

Vessel options include:  
Mother and Child | Dental  
ENT | Ophthalmology | VCT | X-Ray Screening  
Mobile Medical Solutions

The intrinsic value of standardized platform design is created by simply increasing the standard module's plate thickness and either increasing or reducing bulkheads, frames or stringer intervals, allowing for infinite engineering options to suit client requirements with regards:

## Modular Water Clinic Facility

Single or double  
Deck layout

Available in  
6 to 24 meters

Includes Staff Quarters  
and several  
consulting rooms

Layout design for various  
clinic options
